Exam Code: 220-802

Exam Name: CompTIA A+ Certification Exam (220-802)

Visualexams

QUESTION 1

A user is having trouble connecting to the Internet. Which of the following commands should a technician use, from the user's workstation, to ensure that the workstation has a valid IP address?

- A. NETSTAT
- B. PING
- C. IPCONFIG
- D. TRACERT

Correct Answer: C

Section: (none)

Explanation

Explanation/Reference:

QUESTION 2

Which of the following operating systems supports full BitLocker functionality?

- A. Windows XP
- B. Windows 7 Professional
- C. Windows Vista Home
- D. Windows 7 Enterprise

Correct Answer: D

Section: (none)

Explanation

Explanation/Reference:

QUESTION 3

Which of the following should a technician do FIRST to secure a mobile device?

- A. Assign a passcode
- B. Download updates
- C. Disable GPS
- D. Install antivirus

Correct Answer: A

Section: (none)

Explanation

Explanation/Reference:

QUESTION 4

When running Windows XP, which of the following would give a list of switches for the CHKDSK command?

- A. chkdsk ~?
- B. chkdsk :?
- C. chkdsk /?
- D. chkdsk \?

Correct Answer: C

Section: (none)

Explanation

Explanation/Reference:

QUESTION 5

Which of the following commands would a technician use to move one directory above or below the one the technician is currently in?

<http://www.gratisexam.com/>

- A. DIR
- B. RD
- C. CD
- D. MD

Correct Answer: C

Section: (none)

Explanation

Explanation/Reference:

QUESTION 6

A user states that the computer takes a long time to load the desktop after login. Which of the following tools should be used to help remediate the problem?

- A. Disk Management
- B. FIXMBR
- C. MSCONFIG
- D. SFC

Correct Answer: C

Section: (none)

Explanation

Explanation/Reference:

QUESTION 7

Which of the following operating systems supports full usage of 8GB DDR3 RAM?

- A. Windows 7 Professional x86
- B. Windows 7 Home Premium x64
- C. Windows XP Professional
- D. Windows Vista Home Premium x86

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 8

Which of the following tabs under MSCONFIG would allow a technician to configure all of the applications that launch at boot?

- A. Startup
- B. Services
- C. Tools
- D. Boot

Correct Answer: A

Section: (none)

Explanation

Explanation/Reference:

QUESTION 9

A user is reporting that their screen is flickering at a rapid rate. Which of the following Control Panel paths should a technician use in order to remedy this issue?

- A. Display -> Settings -> Advanced -> General -> DPI
- B. Display -> Settings -> Resolution
- C. Display -> Settings -> Advanced -> Adapter -> Refresh
- D. Display -> Appearance -> Effects -> Transition

Correct Answer: C

Section: (none)

Explanation

Explanation/Reference:

QUESTION 10

A user has a laptop that they need to get ready for an outdoor presentation. The user is concerned that the laptop will turn off the screen or go into standby before their presentation is complete. Which of the following Control Panel paths should the technician use in order to prevent this from occurring?

- A. System -> Hardware
- B. Power Options -> Power Schemes
- C. System -> Advanced -> Performance
- D. Power Options -> Hibernate

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 11

Which of the following data transfers will retain the current NTFS permissions of a file?

- A. Copying the file to a different location on the same volume
- B. Copying the file to a different location on a different volume
- C. Moving the file to a different location on a different volume
- D. Moving the file to a different location on the same volume

Correct Answer: D

Section: (none)

Explanation**Explanation/Reference:****QUESTION 12**

A user's computer keeps producing a "low virtual memory" alert and the speed of the system degrades afterwards. Which of the following Control Panel locations can provide information to review and correct this issue?

- A. System > Remote
- B. System > Hardware
- C. System > System Restore
- D. System > Advanced

Correct Answer: D

Section: (none)

Explanation**Explanation/Reference:****QUESTION 13**

A user wants to change the functionality that occurs when the laptop lid is closed. Which of the following Control Panel options is the MOST direct way to adjust this?

- A. Display
- B. Power Options
- C. Personalization
- D. Device Management

Correct Answer: B

Section: (none)

Explanation**Explanation/Reference:****QUESTION 14**

Which of the following Control Panel items will allow for easy streaming of pictures, music, and videos to other Windows 7 PCs?

- A. Ease of Access Center
- B. AutoPlay
- C. Sync Center
- D. HomeGroup

Correct Answer: D

Section: (none)

Explanation**Explanation/Reference:****QUESTION 15**

The folder "Documents" is shared. The user can create and delete documents when on the local PC, but can only read documents when accessing them remotely. Which of the following should be adjusted?

- A. Read Only Attribute
- B. Share Permissions

- C. Firewall Settings
- D. NTFS Permissions

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 16

Which of the following security controls would be an example of the least privilege principle on a home PC?

- A. Install antispyware on the PC.
- B. Create a standard user account for kids.
- C. Store all financial data in a separate folder.
- D. Disable the firewall for online gaming.

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 17

A user regularly has to walk away from their computer and is worried someone may access their workstation. Which of the following would BEST prevent this?

- A. Lock the workstation
- B. Shutdown the computer
- C. Logon using the unprivileged guest account
- D. Set the screensaver password

Correct Answer: A

Section: (none)

Explanation

Explanation/Reference:

QUESTION 18

A user is installing Windows 7 on a PC with a RAID card. The user has verified all of the cables are connected correctly, but the installation media does not detect any hard drives. Which of the following should the user do to help detect the hard drives?

- A. Press F8 when prompted
- B. Hit the refresh button to force a re-detect
- C. Enable PATA in the BIOS
- D. Select load driver

Correct Answer: D

Section: (none)

Explanation

Explanation/Reference:

QUESTION 19

Which of the following accounts is MOST restrictive?

- A. Administrator
- B. Standard User
- C. Guest
- D. Power User

Correct Answer: C

Section: (none)

Explanation

Explanation/Reference:

QUESTION 20

A technician is tasked with installing a legacy application on a Windows 7 computer. When the technician tries to install the legacy application, an error is received that the application cannot be installed because the OS is not supported. Which of the following should the technician do FIRST to try to get the application installed in Windows 7?

- A. Install the application in safe mode
- B. Install the application with compatibility mode
- C. Install the latest Windows service packs and updates
- D. Install Windows Security updates on the system

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 21

A user has not received any new emails on their smartphone in the last two days. The user is able to access the Internet without any problems. Which of the following should the user do FIRST?

- A. Restart the smartphone
- B. Reconfigure the smartphone email account
- C. Resynchronize the smart phone
- D. Update the operating system

Correct Answer: A

Section: (none)

Explanation

Explanation/Reference:

QUESTION 22

A technician needs to format a file system to be compatible with the WIDEST range of operating systems. Which of the following file systems should be used?

- A. NTFS
- B. FAT16
- C. CDFS
- D. FAT32

Correct Answer: D

Section: (none)

Explanation

Explanation/Reference:

QUESTION 23

For any given 802.11n wireless Internet signal, which of the following is needed to establish a connection?

- A. MAC address filtering
- B. Windows password
- C. Proper SSID
- D. SSL certificate

Correct Answer: C

Section: (none)

Explanation

Explanation/Reference:

QUESTION 24

A user reports that a file they shared out on their computer for another network user is not accessible to the third party. The user insists they specifically gave this third party Allow rights for Read and Write access. Which of the following could explain the problem at hand?

- A. The parent folder has explicit Allow rights set for this user.
- B. The parent folder has explicit Deny rights set for this user.
- C. The user forgot to share the parent folder and only shared the specific file.
- D. The parent folder likely has the "archive" attribute enabled.

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 25

A company is experiencing issues with third parties tailgating authorized users during entry to secure server rooms. Which of the following would BEST alleviate this problem?

- A. Retinal scanners
- B. Mantraps
- C. Door locks
- D. Smart card badges

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 26

A consultant is looking to consolidate six company servers onto one physical system. Which of the following requirements is MOST important on the new setup to ensure stable functionality of the virtual environment?

- A. Client hardware requirements
- B. Server software security requirements
- C. Server hardware resources

D. Network resources

Correct Answer: C

Section: (none)

Explanation

Explanation/Reference:

QUESTION 27

Which of the following security concepts establishes the notion that a user should only be given sufficient access to the resources they need to perform their job function?

- A. Deny all
- B. Allow all
- C. Most privilege
- D. Least privilege

Correct Answer: D

Section: (none)

Explanation

Explanation/Reference:

QUESTION 28

A technician is trying to diagnose a laptop that is experiencing heavy artifact corruption and random loss of video during operation. Which of the following are MOST likely causes of this problem? (Select TWO).

- A. Integrated system video chip is failing and/or near death.
- B. Video drivers were not installed directly from Microsoft update.
- C. Incompatible or untested video drivers have been installed.
- D. The BIOS is not set for the proper operation temperature of the video chipset.
- E. The BIOS is underclocking the video card's operating speed.

Correct Answer: AC

Section: (none)

Explanation

Explanation/Reference:

QUESTION 29

A user reports that every time they use a search engine and click on a link to go to a website, they instead are taken to a site blocked by their company's content filter. The user is not trying to go to the blocked site and needs to be able to successfully use the search engine to complete their assignment. Which of the following tools would a technician use to BEST resolve this issue?

- A. Anti-malware software
- B. Factory pre-installation
- C. System restore
- D. Recovery console

Correct Answer: A

Section: (none)

Explanation

Explanation/Reference:

QUESTION 30

After being infected with a virus, a user's computer does not recognize the user as having local administrator rights to the computer. After troubleshooting the issue, a technician determines the computer needs to be rebuilt and data needs to be restored from the user's backup. Which of the following tools would BEST reset the computer to how it worked when first purchased?

- A. Recovery Console
- B. Factory restore CD
- C. Anti-malware software
- D. System Restore

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 31

A technician installed a second hard drive in a computer. Upon restart, a message appears stating, "primary drive 0 not found. Press F1 to continue." Which of the following should the technician check FIRST?

- A. That NTLDR and boot.ini are not missing
- B. Proper drive installation (e.g. cables/jumpers)
- C. If computer can boot into safe mode
- D. If the BIOS boot settings are correct

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 32

The shared folder named C\$ is an example of which of the following?

- A. Local share
- B. Permission propagation
- C. Inheritance
- D. Administrative share

Correct Answer: D

Section: (none)

Explanation

Explanation/Reference:

QUESTION 33

Which of the following is BEST used to prevent other people from viewing a user's computer screen?

- A. Anti-virus software
- B. Key fob
- C. Biometric device
- D. Privacy filter

Correct Answer: D

Section: (none)

Explanation

Explanation/Reference:

QUESTION 34

A pest exterminator tries to gain access to a company's computer lab, but the receptionist does not see an extermination scheduled on the calendar and denies the exterminator access to the lab. Which of the following security threats almost occurred?

- A. War driving
- B. Social engineering
- C. Shoulder surfing
- D. Phishing

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 35

Which of the following can be used as an appropriate boot device?

- A. USB drive
- B. HDMI
- C. OEM recovery media
- D. FDISK

Correct Answer: A

Section: (none)

Explanation

Explanation/Reference:

QUESTION 36

A user tries to connect to the Internet using a dial-up modem and receives a "No dial tone detected" message. Which of the following is the FIRST thing the technician should check to troubleshoot the issue?

- A. Check if the cable is connected on the modem's phone RJ-45 port.
- B. Check if the cable is connected on the modem's line RJ-11 port.
- C. Check if the cable is connected on the modem's line RJ-45 port.
- D. Check if the cable is connected on the modem's phone RJ-11 port.

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 37

Which of the following software types would need to be installed on a mobile device to help prevent data from being viewed if the device is lost?

- A. Remote wipe
- B. Antivirus

- C. GPS locator
- D. Remote backup application

Correct Answer: A

Section: (none)

Explanation

Explanation/Reference:

QUESTION 38

Which of the following is the BEST tool to verify the cable is plugged into the correct port on the patch panel?

- A. Cable certifier
- B. Punch down
- C. Toner probe
- D. Cable tester

Correct Answer: C

Section: (none)

Explanation

Explanation/Reference:

QUESTION 39

Which of the following is the BEST tool for a technician to use to make sure the network wires are securely fastened in a wall jack?

- A. Crimper
- B. Small flat screwdriver
- C. Wire strippers
- D. Punch down

Correct Answer: D

Section: (none)

Explanation

Explanation/Reference:

QUESTION 40

Which of the following is the BEST tool for a technician to use to make sure the network cable is securely fastened in the RJ-45 connector?

- A. Cable tester
- B. Crimper
- C. Small flat screwdriver
- D. Punch down

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 41

A technician is using the troubleshooting theory to help resolve a problem that is occurring with a client's

machine. The technician has verified system functionally. Which of the following is the NEXT step in the troubleshooting theory?

- A. Identify the problem
- B. Establish a plan of action to resolve the problem
- C. Test the theory to determine cause
- D. Document findings, actions, and outcomes

Correct Answer: D

Section: (none)

Explanation

Explanation/Reference:

QUESTION 42

A client reports that their VoIP phone screen displays duplicate IP address. Which of the following is the FIRST action to try to resolve this problem?

- A. Change MAC address settings
- B. Call the vendor
- C. Try another LAN connection
- D. Reboot the phone

Correct Answer: D

Section: (none)

Explanation

Explanation/Reference:

QUESTION 43

After an installation of a video adapter, the screen on a Windows 7 system cannot be seen. Which of the following Windows 7 functions will resolve this?

- A. Component Management
- B. Startup Repair
- C. Device Manager
- D. Task Manager

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 44

Which of the following resources is MOST important for accessing remote virtual environments on a client machine?

- A. Network speed
- B. CPU speed
- C. High speed memory
- D. Drive space

Correct Answer: A

Section: (none)

Explanation

Explanation/Reference:

QUESTION 45

A computer program that functions normally while quietly installing malicious software on a machine is known as a:

- A. DDoS attack.
- B. Worm.
- C. Phishing attack.
- D. Trojan.

Correct Answer: D

Section: (none)

Explanation

Explanation/Reference:

QUESTION 46

Which of the following security threats is BEST mitigated through proper user training?

- A. A Worm
- B. Rootkits
- C. Social Engineering
- D. Browser Adware

Correct Answer: C

Section: (none)

Explanation

Explanation/Reference:

QUESTION 47

A user sent an email requesting that a technician check if a computer is on and connected to the Internet so the user can login from home. Which of the following commands in the command prompt would a technician use to verify if the computer is on and connected without having to go to the computer?

- A. NSLOOKUP
- B. NETSTAT
- C. PING
- D. IPCONFIG

Correct Answer: C

Section: (none)

Explanation

Explanation/Reference:

QUESTION 48

A technician recently removed spyware from a computer and now the user is getting error messages about system files. Which of the following tools would a technician use to verify all system files are intact and in their original versions?

- A. Repair Disk
- B. SFC
- C. FIXMBR

D. ASR

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 49

A technician gets a call from a customer stating that their computer will not boot. They are getting the following error "invalid system disk". Which of the following should the technician check FIRST?

- A. Verify the operating system is installed correctly.
- B. Verify that all removable drives are empty.
- C. Verify Boot.ini is on the hard drive.
- D. Verify the computer will boot into safe mode.

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 50

The practice of following an authorized person through an entrance without using a badge to defeat security is called:

<http://www.gratisexam.com/>

- A. tailgating.
- B. spamming.
- C. shredding.
- D. phishing.

Correct Answer: A

Section: (none)

Explanation

Explanation/Reference:

QUESTION 51

Turnstiles and other mantraps will prevent which of the following security threats?

- A. Shoulder surfing
- B. Tailgating
- C. Rootkits
- D. Viruses

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 52

Which of the following encryption standards is found on older wireless devices and provides minimal security?

- A. WPA
- B. WPA2
- C. WEP
- D. AES

Correct Answer: C

Section: (none)

Explanation

Explanation/Reference:

QUESTION 53

An IR printer stops working for half of an office while the other half is able to print. Which of the following should be checked FIRST?

- A. Proper lighting
- B. Paper levels
- C. Physical obstructions
- D. Printer share name

Correct Answer: C

Section: (none)

Explanation

Explanation/Reference:

QUESTION 54

If a computer does not have an optical drive, which of the following is the MOST efficient method to install an operating system?

- A. Emergency Restore CD
- B. Floppy disk
- C. USB flash drive
- D. Bluetooth connection

Correct Answer: C

Section: (none)

Explanation

Explanation/Reference:

QUESTION 55

Which of the following is the MAXIMUM number of primary partitions that can be created on a hard drive with FAT32?

- A. 2
- B. 4
- C. 6

D. 8

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 56

Phishing is:

- A. an infection that causes a web browser to go to a different site than the one intended from a search result page.
- B. a technique used to obtain financial information from a user mimicking a legitimate website.
- C. an infection that causes a computer to behave erratically by playing music and launching browser windows.
- D. a technique used to obtain financial information from a user by compiling information from social networks and their friends.

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 57

The computer starts up and runs for less than a minute before shutting down or locking up. This is a symptom of:

- A. overheating.
- B. incompatible RAM.
- C. a faulty hard drive.
- D. a bad internal USB hub.

Correct Answer: A

Section: (none)

Explanation

Explanation/Reference:

QUESTION 58

When the computer is turned on it emits a series of beeps and does not POST. This can be caused by a bad:

- A. CMOS battery.
- B. video card.
- C. IDE cable.
- D. floppy cable.

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 59

A technician needs to decrease the time it takes to install an operating system on 100 computers. Which of the following installations would the technician use to reduce hands-on time spent on each computer?

- A. Upgrade installation
- B. USB installation
- C. Unattended installation
- D. Clean installation

Correct Answer: C

Section: (none)

Explanation

Explanation/Reference:

QUESTION 60

A technician is configuring a PC that will have confidential information stored on it. To ensure that only authorized users can access this PC, which of the following should the technician do? (Select TWO).

- A. Disable the guest account
- B. Install antivirus applications
- C. Disable DHCP
- D. Change the SSID
- E. Change the default username

Correct Answer: AE

Section: (none)

Explanation

Explanation/Reference:

QUESTION 61

A company recently had a security breach and is now required to increase the security on their workstations. A technician has been tasked to harden all the workstations on the network. Which of the following should the technician do?

- A. Enable Windows automatic updates
- B. Enable screensaver required passwords
- C. Enable MAC filtering
- D. Enable wireless encryption

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 62

A technician recently installed a new video card in a PC. The PC already has integrated video on the motherboard. When the technician turns on the PC, there is no video. Which of the following is MOST likely the cause?

- A. The motherboard BIOS version is out of date.
- B. The incorrect video card drivers are installed.
- C. The power connector for the video card is unplugged.
- D. The video card is unsupported by the motherboard.

Correct Answer: C

Section: (none)

Explanation

Explanation/Reference:

QUESTION 63

A user receives a phone call from a person claiming to be from technical support. This person knows the user's name and that the user has Windows installed on their computer. The technician directs the user to open Event Viewer and look at some event log entries to demonstrate the effects of a virus on the computer. The technician also asks the user for their user ID and password so that they can clean the computer. This is an example of which of the following security threats?

- A. Social engineering
- B. Phishing
- C. Malware
- D. Virus

Correct Answer: A

Section: (none)

Explanation

Explanation/Reference:

QUESTION 64

A user has just purchased a wireless router for their home. Which of the following should be done to BEST secure the router from unauthorized access? (Select TWO).

- A. Change router default logins
- B. Change the security settings on their computer
- C. Set encryption on the router
- D. Update router firmware
- E. Change the encryption on the computer's wireless adapter

Correct Answer: AC

Section: (none)

Explanation

Explanation/Reference:

QUESTION 65

A user's CRT display is not displaying colors correctly. Turning the display to the right or left sometimes temporarily corrects the problem. Which of the following should the technician check?

- A. The video card display driver
- B. The CRT power cable
- C. The video cable
- D. The CRT On Screen Display (OSD)

Correct Answer: C

Section: (none)

Explanation

Explanation/Reference:

QUESTION 66

A laser printer is producing completely blank sheets. Which of the following processes should the technician check FIRST?

- A. Fusing
- B. Paper handling
- C. Transfer
- D. Development

Correct Answer: D

Section: (none)

Explanation

Explanation/Reference:

QUESTION 67

A Windows user states that every time they hit certain letter keys on their notebook, a number appears instead of the letter. Which of the following items is MOST likely the cause of this problem?

- A. The user enabled sticky keys.
- B. The user changed the keyboard character set.
- C. The user enabled accessibility options.
- D. The user enabled num lock.

Correct Answer: D

Section: (none)

Explanation

Explanation/Reference:

QUESTION 68

A Windows 7 desktop PC has crashed (i.e. BSOD) several times indicating a possible RAM problem. Which of the following is an OS built-in tool that can be used to test this problem?

- A. Windows System Restore
- B. Windows System File Checker
- C. MSCONFIG
- D. Windows Memory Diagnostic

Correct Answer: D

Section: (none)

Explanation

Explanation/Reference:

QUESTION 69

Which of the following should be regularly scheduled to fix hard drive errors?

- A. Defragmentation
- B. Check Disk
- C. System Restore
- D. Antivirus Scan

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 70

A user is experiencing slow performance with their computer. A technician suspects the computer has a virus and runs antivirus software. A virus is found and removed, but the performance issue is not resolved. Which of the following should the technician perform NEXT?

- A. Document findings, actions, and outcomes
- B. Establish a plan of action to resolve the problem
- C. Re-establish a new theory or escalate
- D. Implement preventative measures

Correct Answer: C

Section: (none)

Explanation

Explanation/Reference:

QUESTION 71

After installing a new multifunctional printer, an administrator realizes the flatbed scanner does not scan any documents. Which of the following is the MOST likely reason of the issue?

- A. The scanner lock switch on the device is locked.
- B. The printer driver was installed incorrectly.
- C. The multifunction printer's USB cable was plugged into the incorrect port.
- D. The scanner's alignment and calibration was not performed.

Correct Answer: A

Section: (none)

Explanation

Explanation/Reference:

QUESTION 72

After replacing a motherboard on a customer's laptop for a no sound issue, a technician realizes that there is intermittent wireless connectivity on the laptop. Which of the following should the technician perform FIRST?

- A. Reinstall the driver of the WiFi card.
- B. Check to see if there is a wireless switch on the laptop and its current position.
- C. Replace the wireless card because it is not fully compatible with the new motherboard.
- D. Check if the WiFi antenna is connected properly to the wireless card.

Correct Answer: D

Section: (none)

Explanation

Explanation/Reference:

QUESTION 73

The benefit of MAC filtering in wireless networking is that the network:

- A. is encrypted.
- B. is not visible.
- C. uses static IP addresses.

D. is more secure.

Correct Answer: D

Section: (none)

Explanation

Explanation/Reference:

QUESTION 74

A technician is trying to request a new IP address to a customer's computer through the command prompt. Which of the following commands should the technician use?

- A. ipconfig /flushdns
- B. ipconfig /renew
- C. ipconfig /all
- D. ipconfig /release

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 75

A customer is not able to connect to any websites. Which of the following commands should a technician run FIRST to identify the issue?

- A. NETSTAT
- B. NET SHOW
- C. IPCONFIG
- D. TRACERT

Correct Answer: C

Section: (none)

Explanation

Explanation/Reference:

QUESTION 76

A technician wants to know the MAC address of a computer. Which of the following commands would the technician use?

- A. IPCONFIG
- B. NSLOOKUP
- C. NETSTAT
- D. PING

Correct Answer: A

Section: (none)

Explanation

Explanation/Reference:

QUESTION 77

A technician would like to dispose of a hard drive that is no longer needed. According to company policy, all contents on the disk should be deleted before disposal. Which of the following OS command line tools

should be used?

- A. CHKDSK
- B. DEL
- C. SCANDSK
- D. FORMAT

Correct Answer: D

Section: (none)

Explanation

Explanation/Reference:

QUESTION 78

When securing a new wireless router, which of the following should be changed FIRST?

- A. Default SSID
- B. Radio power levels
- C. Default password
- D. DHCP settings

Correct Answer: C

Section: (none)

Explanation

Explanation/Reference:

QUESTION 79

A computer starts to boot then quickly shuts down. Which of the following should the technician use to troubleshoot this issue?

- A. Toner probe
- B. Power supply tester
- C. Loopback plugs
- D. Events logs

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 80

A client has a computer that is infected with several viruses and spyware. Which of the following should the technician perform FIRST before spyware removal?

- A. Run Windows Update
- B. Disable system restore
- C. Run the chkdsk /r command
- D. Disable network cards

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 81

A PC is running slower than usual. Which of the following tools would BEST diagnose the possible bottleneck?

- A. CHKDSK
- B. Device Manager
- C. Task Scheduler
- D. Task Manager

Correct Answer: D

QUESTION 82

Which of the following switches should a technician use with the PING command to resolve an IP address to a hostname?

- A. -a
- B. -f
- C. -n
- D. -t

Correct Answer: A

Section: (none)

Explanation

Explanation/Reference:

QUESTION 83

A technician is trying to setup a non-domain user account on a workstation, but receives the following error message "Password does not meet the complexity requirements." Which of the following utilities should the technician use to identify the criteria?

- A. Local Security Policy
- B. Users and Groups
- C. Performance Monitor
- D. MSCONFIG

Correct Answer: A

Section: (none)

Explanation

Explanation/Reference:

QUESTION 84

In a SOHO wireless network, which of the following prevents unauthorized users from accessing confidential data?

- A. Reduce broadcast power
- B. Change SSID name
- C. Set encryption
- D. Enable MAC filtering

Correct Answer: C
Section: (none)
Explanation

Explanation/Reference:

QUESTION 85

Which of the following commands is used to map a network drive?

- A. NBTSTAT
- B. NET USE
- C. NETMAP
- D. NETSTAT

Correct Answer: B
Section: (none)
Explanation

Explanation/Reference:

QUESTION 86

A technician recently setup a new wired network and wants to ensure only their computers can use it. Which of the following is the MOST secure way to accomplish this?

- A. Make sure the computers are using strong passwords.
- B. Enable an intrusion detection system.
- C. Assign the computers static IP addresses.
- D. Disable the extra ports on the router.

Correct Answer: D

Explanation/Reference:

QUESTION 100

A technician is installing and configuring a SOHO wireless network for a client. The client only wants five authorized computers to connect to the network with a defined IP range. Which of the following should the technician configure on the router? (Select TWO).

- A. DMZ
- B. DHCP
- C. ARP
- D. SSID
- E. MAC filtering

Correct Answer: BE

Section: (none)

Explanation

Explanation/Reference:

QUESTION 101

A user calls the helpdesk and states that they are receiving an IP conflict error on their computer. The user is on a company network that uses DHCP. The technician verified the PC is using DHCP to obtain TCP/IP settings. Which of the following commands should the helpdesk technician use to resolve this issue? (Select TWO).

- A. Ipconfig /renew
- B. Ipconfig /registerdns
- C. Ipconfig /all
- D. Ipconfig /flushdns
- E. Ipconfig /release

Correct Answer: AE

Section: (none)

Explanation

Explanation/Reference:

QUESTION 102

A user calls the helpdesk and states that they suddenly cannot connect to the Internet or any other network resources. The user is on a company network that uses DHCP. The technician runs IPCONFIG from the command prompt and the PC has an IP address of 0.0.0.0. Which of the following steps should the technician perform FIRST to troubleshoot this issue?

- A. Check the network cable
- B. Replace network card
- C. Assign a static IP address
- D. Reinstall the network drivers

Correct Answer: A

Section: (none)

Explanation

Explanation/Reference:

QUESTION 103

A technician has installed the hardware for a SOHO wired network. Which of the following is the FIRST step to securing the network?

- A. Enable MAC filtering
- B. Change default usernames and passwords
- C. Disable unused ports
- D. Assign static IP addresses

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 104

A bank is upgrading some clerical users' PCs. Which of the following would be the MOST appropriate method for erasing the data on the old PCs?

- A. Drive degauss
- B. Standard format
- C. Change the jumpers on the hard drive
- D. Quick format

Correct Answer: A

Section: (none)

Explanation

Explanation/Reference:

QUESTION 119

When walking past a server with a RAID 5 array, a technician hears a loud clicking noise. Which of the following could MOST likely occur?

- A. BSOD
- B. OS not found on boot
- C. Hard drive failure
- D. RAID array failure

Correct Answer: C

Section: (none)

Explanation

Explanation/Reference:

QUESTION 120

A wireless network is experiencing intermittent connectivity. Which of the following would BEST resolve this issue?

- A. Enable MAC filtering
- B. Change broadcast channel
- C. Enable wireless encryption
- D. Disable SSID broadcasting

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 121

When configuring user accounts, which of the following should a technician perform?

- A. Make all users local administrators
- B. Assign the minimum required access to the users
- C. Make all users standard users
- D. Assign the maximum required access to the users

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 122

A technician needs to rebuild a computer that had a virus. Which of the following data destruction methods should be used to ensure the virus has been successfully erased before reinstalling the operating system, programs, and all user data?

- A. Standard format
- B. Low level format
- C. Shredder
- D. Degaussing tool

Correct Answer: A

Section: (none)

Explanation

Explanation/Reference:

QUESTION 123

Which of the following security threats do shredders help prevent?

- A. Dumpster diving
- B. Malware
- C. Phishing
- D. Worms

Correct Answer: A

Section: (none)

Explanation

Explanation/Reference:

QUESTION 124

A user states when they press certain letters on their laptop's keyboard, a number is displayed on the screen. Which of the following can the technician perform to resolve this issue?

- A. Change the character mapping
- B. Turn off number lock
- C. Replace the keyboard
- D. Update the keyboard drivers

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 125

Which of the following is the correct path to determine the IP address on an iOS device?

- A. General> Settings> Wi-Fi> SSID Name> Network> IP address
- B. Wi-Fi> SSID Name> Network> IP address
- C. Settings> General> Network> Wi-Fi> SSID Name> IP address
- D. Location Services> Settings> Wi-Fi> SSID Name> Network> IP address

Correct Answer: C

Explanation/Reference:

QUESTION 168

Which of the following Control Panel utilities would be BEST to use to remove a Windows 7 application?

- A. Folder Options
- B. Add/Remove Programs
- C. Programs and Features
- D. Administrator Tools

Correct Answer: C

Section: (none)

Explanation**Explanation/Reference:****QUESTION 169**

A customer calls and states the new plasma display they just received has yellow spots all over the screen. Which of the following is the MOST likely cause of this issue?

- A. Using wrong video connector
- B. Dead pixels
- C. Dropped in shipping
- D. Incorrect installation

Correct Answer: B

Section: (none)

Explanation**Explanation/Reference:****QUESTION 170**

A customer calls and reports that when they walk away from their laptop for an extended period of time they have to reconnect to wireless when they get back. Which of the following will MOST likely correct this issue?

- A. Disable screensaver
- B. Adjust power settings
- C. Replace the wireless card
- D. Install a higher capacity battery

Correct Answer: B

Section: (none)

Explanation**Explanation/Reference:****QUESTION 171**

Which of the following BEST describes the Apple utility used with iOS devices to synchronize, upgrade, and restore to factory default if needed?

- A. iMac
- B. iTunes
- C. Safari
- D. Bluetooth

Correct Answer: B

Section: (none)

Explanation**Explanation/Reference:****QUESTION 172**

Which of the following tools and test equipment is routinely magnetized and should be used with caution around magnetic media?

- A. Screwdrivers
- B. Power supply testers

- C. Cable testers
- D. Pliers

Explanation

Explanation/Reference:

QUESTION 187

A user is reporting their web browser is not going to the site they are attempting to access. Which of the following would BEST resolve this?

- A. Delete all Internet cookies.
- B. Ensure the user is not utilizing a proxy server.
- C. Remove all Internet shortcuts.
- D. Clear all Internet cache and saved passwords.

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 188

A technician is called onsite to solve a network connection error. Upon arrival, the technician observes a message on the screen stating there is no boot drive found. Which of the following steps should the technician take NEXT?

- A. Repair the boot up sequence using recovery console.
- B. Restart the system, booting from a system recovery disk.
- C. Restart the system to verify the proper boot sequence.
- D. Inform the customer the hard drive has crashed and replace the drive.

Correct Answer: C

Section: (none)

Explanation

Explanation/Reference:

QUESTION 189

The technician is dispatched to a user's home to secure a wireless network. The SOHO user has only one system to connect wirelessly, yet wishes to protect their Wi-Fi from unauthorized use. Which of the following will BEST meet the user's requirements?

- A. Configure the router to allow access by MAC address.
- B. Configure the use of DHCP.
- C. Configure the use of static IP addresses.
- D. Configure the network to utilize a proxy.

Correct Answer: A

Section: (none)

Explanation

Explanation/Reference:

QUESTION 190

A user has installed a new wireless router and is unable to connect their game console to the manufacturer's service. Which of the following should the technician look for FIRST?

- A. Ensure the game system has a static IP address.
- B. Contact the manufacturer to see if service is available.
- C. Ensure the game system has updated firmware.
- D. Ensure the correct ports are open.

Correct Answer: D

Section: (none)

Explanation

Explanation/Reference:

QUESTION 191

A technician needs to use Remote Desktop Connection in order to get access to a remote Windows workstation. However, the Programs menu has been hidden and they only have access to the Run command utility or a command-line prompt. Which of the following is the utility that the technician should use to access Remote Desktop Connection?

- A. MSINFO32
- B. SERVICES.MSC
- C. MSCONFIG
- D. MSTSC

Correct Answer: D

Section: (none)

Explanation

Explanation/Reference:

QUESTION 192

A user reports that they cleared a paper jam and now cannot print. The technician reseats the paper and then prints a test page from the printer. A test page sent from the workstation does not print. Which of the following actions should the technician take FIRST?

- A. Clear the print queue.
- B. Check the printer connection.
- C. Reboot the computer.
- D. Stop and start the printer.

Correct Answer: A

Section: (none)

Explanation

Explanation/Reference:

QUESTION 193

A workstation is making a loud clicking noise that is originating from the hard drive and it is not booting. Which of the following should the technician do FIRST?

- A. Visit the hard disk vendor's site and run a hardware check on the drive.
- B. Put the hard drive in another system and back up all data from it.
- C. Run CHKDSK immediately and replace the drive if it is bad.
- D. Format the drive and restore from a previous image.

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 194

A user is reporting that they cannot connect to the wireless network from their office but they were able to connect yesterday. Which of the following would be the MOST likely reason?

- A. Radio switch on laptop is enabled
- B. Radio switch on laptop is disabled

- C. Channel interference
- D. User is too far away from the access point

Correct Answer: B

Section: (none)

QUESTION 209

Which of the following commands can be used in Windows XP to modify when the CHKDSK command runs?

- A. CONVERT
- B. IPCONFIG
- C. CHKNTFS

D. SCANDSK

Correct Answer: C

Section: (none)

Explanation

Explanation/Reference:

QUESTION 210

A user gets a warning from their ISP about illegally downloading copyrighted movies. The user insists that they did not download any movies and calls a technician to implement stronger small office home office (SOHO) security. Which of the following will allow only known workstations to connect to the SOHO router?

- A. WPA password
- B. Static IPs
- C. MAC filtering
- D. WEP password

Correct Answer: C

Section: (none)

Explanation

Explanation/Reference:

QUESTION 211

A technician is installing a webcam in a nursery for a user to monitor their baby. The user wants to ensure that the webcam is not broadcasting externally. Which of the following would the technician implement on the SOHO router to prevent the broadcast?

- A. Enable MAC filtering
- B. Enable static IPs
- C. Block the outbound port
- D. Change the default SSID

Correct Answer: C

Section: (none)

Explanation

Explanation/Reference:

QUESTION 212

A user installed a new SOHO router and new wireless NICs to increase their transmission speed from 802.11b to 802.11g with the manufacturer's default settings. The user lives in an apartment building and is still experiencing slowness to the Internet after the installations. Which of the following is the MOST secure option that a technician could implement to resolve this issue?

- A. Hide the SSID
- B. Assign static IP addresses
- C. Enable MAC filtering
- D. Disable the WAN port

Correct Answer: C

Section: (none)

Explanation

Explanation/Reference:

QUESTION 213

A user wants to prevent access to specific websites to prevent their children from accidentally accessing them. Which of the following can be implemented?

- A. A switch
- B. Antivirus software
- C. Antispyware software
- D. A firewall

Correct Answer: D

Section: (none)

Explanation

Explanation/Reference:

QUESTION 214

A technician has upgraded an internal WiFi card on a laptop and now the signal power to connect to a WAP is low. Which of the following is the MOST likely cause of the issue?

- A. WIFI card drivers are not installed.
- B. The laptop's memory is faulty.
- C. The laptop's battery is dead.
- D. One of the antenna wires is unplugged.

Correct Answer: D
