SIMULATION

A user has installed two new drives in one of the computers in the computer lab and has been unable to format Disk1 from the command prompt.

The lab requires that Disk1 be a dynamic disk configured with two partitions. The first partition must be 256,000 MB in size and mapped to drive F. The second partition must be 512,000 MB in size and mapped to drive G.

The new partitions must be formatted to ensure that users' files can be secured from other users and that disk must be configured to account for future redundancy. Instructions: Conduct the necessary steps within the Disk Manager to accomplish these tasks. When you have completed the simulation, please, select the Done button to submit.
