

## Pass4sure.C2020-642.75q

Number: C2020-642  
Passing Score: 800  
Time Limit: 120 min  
File Version: 4.5

<http://www.gratisexam.com/>

**C2020-642**

**IBM Cognos 10 BI Scorecard Developer**

- i) I study from this dump and I completed my exam with amazing results of 92% marks!
- ii) The material which present in the course is very interesting and unique
- iii) Your greatest success with pass4sure is guaranteed!
- iv) it is absolutely new and updated so that you would run few steps further all other students who also taking same exam.
- v) Try this,It's perfect in every aspects.

## Exam A

### QUESTION 1

Which activities can only be performed by the Metric Store Administrator?

- A. Set policies.
- B. Create the root scorecard.
- C. Run import and export options.
- D. Add links to a CognosBI report.

**Correct Answer: C**

**Section: (none)**

**Explanation**

**Explanation/Reference:**

straight answer.

### QUESTION 2

A user needs to update target values ONLY for:

- Americas Return quantity %
- Americas Return quantity % Defective product
- Americas Return quantity % Incomplete product

What minimum permissions MUST be applied on the objects for that user?

- A. Write target values permissions to the Americas scorecard and read permissions to all ancestor scorecards.
- B. Write permissions to the three metrics and traverse permissions to all ancestor scorecards.
- C. Write target values permissions to the three metrics and read permissions to all ancestor scorecards
- D. Write permissions to the Americas scorecard and read permissions to all ancestor scorecards

**Correct Answer: C**

**Section: (none)**

**Explanation**

**Explanation/Reference:**

Explanation:

### QUESTION 3

An administrator has created a scorecard structure with three levels:

- 1) Corporate
- 2) Sales
- 3) Americas

Set Policy permissions have been granted to the Sales scorecard. Write Actual Values permissions have been granted to the Corporate scorecard. By default, what permissions will a new metric added under the Americas scorecard have?

- A. Execute only
- B. Write Actual Values only
- C. Set Policy only
- D. Read only

**Correct Answer:** C

**Section:** (none)

**Explanation**

**Explanation/Reference:**

Explanation:

#### QUESTION 4

The scorecard developer has created a new user defined column called Stretch Target and wants to manually add stretch target values to the Sales metric. To do so, what does the scorecard developer first need to do?

- A. Specify Stretch Target as a user defined column in the Sales metric type.
- B. Re-calculate metric store derived values.
- C. Create a metric type called Stretch Target.
- D. Include Stretch Target in the default display columns.

**Correct Answer:** A

**Section:** (none)

**Explanation**

**Explanation/Reference:**

agreed with the given answer.

#### QUESTION 5

Which of the following is a characteristic of five state status indicators?

<http://www.gratisexam.com/>

- A. The metric administrator can set an option for how many states fall above or below on target state.
- B. The number of statuses above on target depends on the metric type performance pattern of the metric.
- C. The number of statuses above on target can be set to a value between 1 and 4.
- D. The number of statuses above on target is the same as that below on target.

**Correct Answer:** D

**Section:** (none)

**Explanation**

**Explanation/Reference:**

straight answer.

#### QUESTION 6

Which of the following can be added to a strategy element?

- A. Scorecards
- B. Diagrams
- C. Projects
- D. Actions

**Correct Answer:** C

**Section:** (none)

**Explanation**

**Explanation/Reference:**

Explanation:

#### **QUESTION 7**

There is a requirement to create a report 01 various scorecards with the company logo and corporate color schemes. What would be the MOST appropriate method to use?

- A. Use My Preferences to include the company logo and corporate color schemes and use the toolbar print button on the view with the required scorecard information.
- B. Use My Preferences to include the corporate color schemes and create a diagram with the company logo and the scorecard information.
- C. Use Report Studio to design the report with the logo and the corporate color scheme and the Metric Studio model to report on scorecard information.
- D. Use Report Studio to design the report with the logo and the corporate color scheme and the content store to report on scorecard information.

**Correct Answer:** C

**Section:** (none)

**Explanation**

**Explanation/Reference:**

fine.

#### **QUESTION 8**

An administrator can add a report to which of the following?

- A. Import sources
- B. Actions
- C. Metric types
- D. Business calendars

**Correct Answer:** C

**Section:** (none)

**Explanation**

**Explanation/Reference:**

upgrade answer.

#### **QUESTION 9**

An administrator wants to add a URL to the Reports tab for a scorecard. This URL will reference a PowerPoint presentation. Which of the following would the administrator type in order for the presentation to display correctly?

- A. [www.company.com/scorecard.docs/lmetric\\_sid.ppt](http://www.company.com/scorecard.docs/lmetric_sid.ppt)
- B. [www.company.com/scorecard.docs/\[sc\\_extid\].ppt](http://www.company.com/scorecard.docs/[sc_extid].ppt)
- C. [www.company.com/scorecard.docs/tmetric\\_extidl.ppt](http://www.company.com/scorecard.docs/tmetric_extidl.ppt)
- D. [www.company.com/scorecard.docs/ltype\\_sid.ppt](http://www.company.com/scorecard.docs/ltype_sid.ppt)

**Correct Answer:** B

**Section:** (none)

**Explanation**

**Explanation/Reference:**

straight answer.

**QUESTION 10**

Which of the following can be associated to a custom diagram?

- A. Watch list
- B. Actions
- C. Reports
- D. Scorecards

**Correct Answer:** D

**Section:** (none)

**Explanation**

**Explanation/Reference:**

Best answer.

**QUESTION 11**

Which of the following can an administrator specify for a strategy element?

- A. Scorecards to be included
- B. Default color
- C. Date range
- D. Owner

**Correct Answer:** D

**Section:** (none)

**Explanation**

**Explanation/Reference:**

mentioned answer is perfect.

**QUESTION 12**

What rollup rule was used on this strategy element?

- A. Majority rules
- B. Bubble up green
- C. No status rollup
- D. Bubble up red

**Correct Answer:** A

**Section:** (none)

**Explanation**

**Explanation/Reference:**

Explanation:

**QUESTION 13**

Which of the following can be added to a strategy element?

- A. Metrics
- B. Scorecards
- C. Diagrams
- D. Actions

**Correct Answer:** A

**Section:** (none)

**Explanation**

**Explanation/Reference:**  
straight answer.

**QUESTION 14**

What needs to be done to create a report from multiple scorecarding packages?

- A. Merge Framework Manager models and publishes as a single model.
- B. Merge the contents of the content and staging namespaces in each scorecarding package.
- C. Create a query or report using multiple scorecarding packages.
- D. Create a query or report off the staging namespace of all scorecarding packages.

**Correct Answer:** A

**Section:** (none)

**Explanation**

**Explanation/Reference:**  
Explanation:

**QUESTION 15**

What method of data loading would be used when a data value does not exist in a data asset?

- A. Metric Designer
- B. flat files
- C. SQL scripts
- D. manual entry

**Correct Answer:** D

**Section:** (none)

**Explanation**

**Explanation/Reference:**  
Explanation:

**QUESTION 16**

After executing SQL scripts to deliver values into the metric store, at a minimum, what metric maintenance task must be run to populate the metric store?

- A. Import data from files into staging area
- B. Import and transfer data from files into metric store
- C. Transfer data from staging area into metric store
- D. Recalculate metric store derived values

**Correct Answer:** C

**Section:** (none)

**Explanation**

**Explanation/Reference:**  
Explanation:

**QUESTION 17**

The metric administrator has noticed that previous loads have failed. What should be done by the metric administrator in order to isolate the issue when the load is next run?

- A. Clear staging area of rejected data logs
- B. Clear metric history and calendar data
- C. Update the search engine index
- D. Recalculate metric store derived values

**Correct Answer:** A

**Section:** (none)

**Explanation**

**Explanation/Reference:**

Explanation:

**QUESTION 18**

A company wants to track gross profit in their scorecard application. Gross profit is determined by subtracting expenses from revenue. What can an administrator create to track gross profit?

<http://www.gratisexam.com/>

- A. Derived index metric
- B. Formula-based calculated metric
- C. Derived index metric type
- D. User-defined column

**Correct Answer:** B

**Section:** (none)

**Explanation**

**Explanation/Reference:**

Explanation:

**QUESTION 19**

Which of the following components determines the size of a score?

- A. Tolerance
- B. Metric type performance pattern
- C. Score per tolerance
- D. Metric type rollup rule

**Correct Answer:** C

**Section:** (none)

**Explanation**

**Explanation/Reference:**

Explanation:

**QUESTION 20**

What information is cleared by using 'Clear metric history data only'?

- A. Comments
- B. Actions
- C. Calendar time periods
- D. User defined column values

**Correct Answer:** D

**Section:** (none)

**Explanation**

**Explanation/Reference:**

Explanation:

**QUESTION 21**

When executing an extract in Metric Designer using the Write to files option, which metric maintenance task **MUST** be run to make the data visible in Metric Studio?

- A. Import data from files into staging area
- B. Import and transfer data from files into metric store
- C. Transfer data from staging area into metric store
- D. Recalculate metric store derived values

**Correct Answer:** B

**Section:** (none)

**Explanation**

**Explanation/Reference:**

straight answer.

**QUESTION 22**

How would a user be able to view a list of their metrics according to the goals of their business?

- A. Sort and trend
- B. Strategies
- C. Watch list
- D. Metric types

**Correct Answer:** B

**Section:** (none)

**Explanation**

**Explanation/Reference:**

Explanation:

**QUESTION 23**

A user is presented with the Sales and Marketing scorecard. Based on the information provided, what business calendar level has been selected?

|  | Name                                    | Actual    | Target    | Variance | Variance % | Time Period |
|--|---|-----------|-----------|----------|------------|-------------|
|  | Sales and Marketing Derived Performance |           |           |          |            | Jan 2008    |
|  | Retailer survey                         | 71.76%    | 70.00%    | 1.76%    | 2.51%      | 2007        |
|  | New products                            | 1         | 10        | -9       | 90%        | 2007 Q3     |
|  | Quantity sold                           | 2,868,410 | 2,463,780 | 404,630  | 16%        | Jul 2007    |
|  | Product survey                          | 84.65%    | 75.00%    | 9.65%    | 12.87%     | 2007        |
|  | Product count                           | 246       | 250       | -4       | 2%         | 2007        |
|  | Discount %                              | 4.37%     | 5.50%     | -1.13%   | 20.60%     | Jul 2007    |
|  | New retailers                           | 4         | 15        | -11      | 73%        | 2007 Q3     |
|  | Retailer count                          | 417       | 450       | -33      | 7%         | 2007        |

- A. Most recent values
- B. Monthly level values
- C. Quarterly level values
- D. Yearly level values

**Correct Answer:** A

**Section:** (none)

**Explanation**

**Explanation/Reference:**  
straight answer.

**QUESTION 24**

Which of the following sets of metrics would be MOST appropriate for the balanced scorecard model?

- A. Number of new hires, Turnover rate, Head count, Average age
- B. Revenue, customer satisfaction, product quality, percent of employees trained
- C. Sales, revenue per sq ft, product quality, number of returns
- D. Global revenue, revenue for services, revenue for product sales, revenue for support

**Correct Answer:** B  
**Section:** (none)  
**Explanation**

**Explanation/Reference:**  
fresh and updated.

**QUESTION 25**

The data that needs to be populated in the metric store requires consolidation and data cleansing from various data sources. What is the MOST appropriate data loading technique to accomplish this?

- A. Manual entry
- B. Metric Designer
- C. SQL scripts (structured query language)
- D. An ETL tool (extraction, transformation, and loading)

**Correct Answer:** D  
**Section:** (none)  
**Explanation**

**Explanation/Reference:**  
Explanation:

**QUESTION 26**

Which of the following is a step in the process of loading data from a Cognos Planning system into a Metric Studio application?

- A. Create a Framework Manager model in Metric Designer.
- B. Import Contributor flat files to the metric store.
- C. Create a Framework Manager model from published Contributor data.
- D. Transfer live Analyst data directly into the metric store.

**Correct Answer:** C  
**Section:** (none)  
**Explanation**

**Explanation/Reference:**  
Explanation:

**QUESTION 27**

A scorecard application has been implemented using the balanced model, where four scorecards were created for each perspective. Which perspectives contain the following metrics? · Defects per unit

- Number of returns
- Number of recalls

- A. Financial and Customer
- B. Customer and Internal Process
- C. Internal Process and Learning and Growth

D. Financial and Learning and Growth

**Correct Answer:** B

**Section:** (none)

**Explanation**

**Explanation/Reference:**

#### QUESTION 28

An administrator attempted to transfer metric values from the staging area into the metric store. However, not all of the metrics were populated with expected values. In which table can the administrator locate the rejected rows for review, correction, and reloading?

- A. KPI\_VALUE\_STAGE\_REJECTS
- B. OBJECT\_STAGE\_REJECTS
- C. METRIC\_TYPE\_STAGE\_REJECTS
- D. OBJECT\_NOTE\_STAGE\_REJECTS

**Correct Answer:** A

**Section:** (none)

**Explanation**

**Explanation/Reference:**

Explanation:

#### QUESTION 29

How would the scorecard developer delete the Marketing scorecard and move its children under the Corporate scorecard?

- A. In the user interface, drag the children to the Corporate scorecard and then delete the Marketing scorecard.
- B. In the user interface, mark the Marketing scorecard for deletion, drag the Corporate scorecard and run re-calculate metrics derived values.
- C. In the .cmo file, re-assign the parent to the children scorecard and then mark the Marketing scorecard for deletion.
- D. In the .cmdfile, re-assign the parent to the children scorecard and then mark the Marketing scorecard for deletion.

**Correct Answer:** C

**Section:** (none)

**Explanation**

**Explanation/Reference:**

Explanation:

#### QUESTION 30

A tab-delimited file with a cmm extension contains what type of objects?

- A. Metrics
- B. Metric types
- C. Metric values
- D. Import sources

**Correct Answer:** B

**Section:** (none)

**Explanation**

**Explanation/Reference:**

Explanation:

#### QUESTION 31

Which statement is true about staging tables?

- A. Staging tables map to Data ManagerTables
- B. Staging tables map to tab-delimited files
- C. Staging tables map to tables in the data warehouse
- D. Staging tables map to tables in the content store

**Correct Answer:** B

**Section:** (none)

**Explanation**

**Explanation/Reference:**

Explanation:

#### QUESTION 32

What must be done to load the data successfully into Metric Studio using structured query language (SQL) scripts?

- A. Perform the task Recalculate metric store derived values after each script execution.
- B. Perform the task Import data from files into staging area after each script execution
- C. Structure the query language to map data from the relational database to the content store.
- D. Structure the query language to map data from the relational database to the staging tables

**Correct Answer:** D

**Section:** (none)

**Explanation**

**Explanation/Reference:**

Explanation:

#### QUESTION 33

Which file extension must be used on the tab-delimited file that defines relationships between objects?

<http://www.gratisexam.com/>

- A. .cmo
- B. .cmr
- C. .cml

D. .cmm

**Correct Answer:** C

**Section:** (none)

**Explanation**

**Explanation/Reference:**

Explanation:

#### **QUESTION 34**

A tab-delimited file with a cmo extension can be used to create what type of object?

- A. Scorecards
- B. Metric types
- C. Calendar levels
- D. Permissions

**Correct Answer:** A

**Section:** (none)

**Explanation**

**Explanation/Reference:**

Explanation:

#### **QUESTION 35**

What directory contains log files needed to troubleshoot problems importing data?

- A. installation\_location/logs/MetricStoreInstall
- B. installation\_location/logs/MetricMaintenance
- C. installation\_location/logs/MetricUpgradePackage
- D. installation\_location/logs/MetricStoreUpgrade

**Correct Answer:** B

**Section:** (none)

**Explanation**

**Explanation/Reference:**

Explanation:

#### **QUESTION 36**

There is a requirement to identify whether metric performance this period is better or worse than the performance for the same period last year. What can be done to determine if performance is better or worse?

- A. Create a user defined column that contains last year's actual value.
- B. Specify that trend be calculated by comparing to same period last year.
- C. Specify the business calendar level display at Year level.
- D. Create a formula-based metric to calculate variance between current period and same period last year.

**Correct Answer:** B

**Section:** (none)

**Explanation**

**Explanation/Reference:**

Explanation:

#### **QUESTION 37**

Which of the following maintenance tasks does NOT calculate scores and statuses?

- A. Import data from files into staging area

- B. Import and transfer data from files into metric store
- C. Transfer data from staging area into metric store
- D. Recalculate metric store derived values

**Correct Answer:** A

**Section:** (none)

**Explanation**

**Explanation/Reference:**

Explanation:

#### QUESTION 38

When publishing a metric extract, which of the following is optional?

- A. Import data into staging tables
- B. Re-calculate values
- C. Transfer from staging to metric store
- D. Create the job

**Correct Answer:** D

**Section:** (none)

**Explanation**

**Explanation/Reference:**

Explanation:

#### QUESTION 39

When viewing a derived index metric with an actual value of -0.91, what does the negative sign indicate?

- A. The actual value is above target by 0.91 tolerance
- B. The actual derived score is below target by 0.91 tolerance
- C. The actual derived score is above the tolerance level by 0.91 tolerance
- D. The actual value is below the derived index score by 0.91 tolerance

**Correct Answer:** B

**Section:** (none)

**Explanation**

**Explanation/Reference:**

approved answer

#### QUESTION 40

Americas Derived Performance is a derived index metric based on all the metrics in the Americas scorecard. Using the most recent view, the status for Americas Derived Performance is not showing. What must a user do to see the status of Americas Derived Performance?

| Name                         | Actual  | Target  | Variance | Time Period |
|------------------------------|---------|---------|----------|-------------|
| Americas Discount %          | 6.21%   | 5.50%   | 0.71%    | Dec 2007    |
| Americas Retailer survey     | 70.91%  | 70.73%  | 0.18%    | 2007        |
| Americas Product survey      | 84.00%  | 74.84%  | 9.16%    | 2007        |
| Americas Quantity sold       | 617,643 | 469,040 | 148,603  | Dec 2007    |
| Americas New Products        | 8       | 10      | -2       | 2007 Q4     |
| Americas New Retailers       | 7       | 15      | -8       | 2007 Q4     |
| Americas Derived Performance |         |         |          | Dec 2007    |

- A. Select calendar level as Month and calendar period as December.

- B. Select calendar level as Quarter and calendar period as Q4.
- C. Select calendar level as Year and calendar period as 2007.
- D. Select show the to-date status values for open periods as of Dec 1, 2007.

**Correct Answer:** C

**Section:** (none)

**Explanation**

**Explanation/Reference:**

Explanation:

#### **QUESTION 41**

What can the user create to indicate that they have taken a corrective step to improve the performance of a metric?

- A. Project
- B. Strategy
- C. Action
- D. Report

**Correct Answer:** C

**Section:** (none)

**Explanation**

**Explanation/Reference:**

justified.

#### **QUESTION 42**

What does the threshold-based calculation method involve?

- A. Setting the tolerance as an absolute value
- B. Setting target boundaries with user defined values
- C. Setting the width of green bands for 'On target is positive' metric types
- D. Setting the tolerance value to indicate how much variance from target is acceptable

**Correct Answer:** B

**Section:** (none)

**Explanation**

**Explanation/Reference:**

Explanation:

#### **QUESTION 43**

Which of the following items is stored in the metric store?

- A. Metric studio user preferences
- B. Published Metric Designer jobs
- C. Metric package data source definition
- D. Specifications for metric maintenance tasks

**Correct Answer:** A

**Section:** (none)

**Explanation**

**Explanation/Reference:**

outclass answer.

#### **QUESTION 44**

A metric's actual value may be significantly different than its target value during a particular period. Which of the following determines how much variance from the target is acceptable?

- A. Calendar rollup value
- B. Tolerance value
- C. Planned finish value
- D. Benchmark value

**Correct Answer:** B

**Section:** (none)

**Explanation**

**Explanation/Reference:**

Explanation:

#### QUESTION 45

What must be created to get an accurate idea of customer satisfaction and how it rates against the organization's target and the competitors' ratings?

- A. Create a benchmark column for the competitor's rating and create a customer satisfaction metric using performance pattern of 'Above target is positive'.
- B. Create a stretch column for your customer satisfaction target and set the competitor's rating using performance pattern of 'Below target is positive'.
- C. Create a customer satisfaction metric using performance pattern of 'Above target is positive' and set the target value as the competitor's rating.
- D. Create a customer satisfaction metric using performance pattern of 'On target is positive', where the lower threshold is the customer's rating and the upper threshold is your stretch target.

**Correct Answer:** A

**Section:** (none)

**Explanation**

**Explanation/Reference:**

answer is exact.

#### QUESTION 46

Which of the following items must be defined at the time of package creation?

- A. Root scorecard
- B. Business calendar levels
- C. Scorecard methodology
- D. Default tolerance percent

**Correct Answer:** B

**Section:** (none)

**Explanation**

**Explanation/Reference:**

Explanation:

#### QUESTION 47

Which of the following items is stored in the content store?

<http://www.gratisexam.com/>

- A. Metric actions

- B. Scorecard projects
- C. Metric diagrams
- D. Scorecard CognosBI reports

**Correct Answer:** D

**Section:** (none)

**Explanation**

**Explanation/Reference:**

Great answer.

#### **QUESTION 48**

Which activity requires the creation of a data integration metric task?

- A. Load data manually
- B. Create a CognosBI report
- C. Transfer data from staging area to metric store
- D. Export data from a metric package

**Correct Answer:** D

**Section:** (none)

**Explanation**

**Explanation/Reference:**

definite.

#### **QUESTION 49**

There is a requirement to load metric values for a metric at the monthly level, but not have the quarterly and yearly values calculated. How is the metric type business calendar rollout level set to accommodate the loading of these values?

- A. Set as sum of individual values
- B. Set as last of individual values
- C. Set as supplied by client
- D. Set as maximum of individual values

**Correct Answer:** C

**Section:** (none)

**Explanation**

**Explanation/Reference:**

rightful answer.

#### **QUESTION 50**

What must exist prior to creating a metrics package?

- A. Scorecard methodology
- B. Business calendar
- C. Database
- D. Metric types

**Correct Answer:** C

**Section:** (none)

**Explanation**

**Explanation/Reference:**

Explanation:

#### **QUESTION 51**

The exhibit shows the monthly values for a specific metric and the rolled up quarterly values. Which rollout

rule is applied?

| Quarter | Month |   |   | Actual  | Target  | Tolerance |
|---------|-------|---|---|---------|---------|-----------|
|         |       |   |   | Average | Average | Average   |
| Q1      | Jan   | ⬆ | ⬇ | 6.79718 | 6.59999 | 0.40000   |
|         | Feb   | ■ | ⬇ | 7.90168 | 6.59999 | 0.40000   |
|         | Mar   | ● | ⬆ | 5.81423 | 6.59999 | 0.40000   |
| Q1      |       | ⬆ | ⬇ | 6.83770 | 6.59999 | 0.40000   |
| Q2      | Apr   | ■ | ⬇ | 7.11683 | 6.59999 | 0.40000   |
|         | May   | ● | ⬆ | 6.44804 | 6.59999 | 0.40000   |
|         | Jun   | ⬆ | ⬇ | 6.74369 | 6.59999 | 0.40000   |
| Q2      |       | ⬆ | ⬇ | 6.76952 | 6.59999 | 0.40000   |
| Q3      | Jul   | ⬆ | ⬇ | 6.82447 | 6.59999 | 0.40000   |
|         | Aug   | ⬆ | ⬇ | 6.98213 | 6.59999 | 0.40000   |

#### QUESTION 52

What needs to be created in order for the financial cube containing the revenue measure to be mapped to a Metric Studio metric named revenue actual value?

- A. Scorecard object extract
- B. Metric type object extract
- C. Metric extract containing cube metadata
- D. Metric extract with a filter on the revenue measure

**Correct Answer:** C

**Section:** (none)

**Explanation**

**Explanation/Reference:**

straight answer.

**QUESTION 53**

Which of the following can NOT be created through a metric extract?

- A. Metrics
- B. Qualifiers
- C. Actions
- D. Scorecards

**Correct Answer: C**

**Section: (none)**

**Explanation**

**Explanation/Reference:**

Explanation:

**QUESTION 54**

To load data directly from an existing Cognos data source, what needs to be installed?

- A. IBM Cognos Planning
- B. IBM Cognos OLAP Modeler
- C. IBM Cognos Metric Designer
- D. IBM Cognos Framework Manager

**Correct Answer: C**

**Section: (none)**

**Explanation**

**Explanation/Reference:**

appropriate answer.

**QUESTION 55**

A finance scorecard contains all the financial key performance indicators. Executives want the application to provide a status and a score for the overall Finance scorecard. How is this implemented?

- A. Set the metric type business calendar rollup level as sum of individual values.
- B. Create a group using the Majority Rules group status calculation on only the Finance scorecard.
- C. Create a derived index metric on the Finance scorecard.
- D. Create an impact diagram where the impacted metrics are all the metrics on the Finance scorecard.

**Correct Answer: C**

**Section: (none)**

**Explanation**

**Explanation/Reference:**

clear answer.

**QUESTION 56**

The HR department is required to monitor headcount. which is a metric type defined as 'On Target is Positive'. The target is 1000 and the range for on target is positive is 50%. The tolerance is 10%. What is the range of values for the upper yellow band?

- A. 1001-1050
- B. 1051-1150
- C. 1101-1150
- D. 1101-1199

**Correct Answer: B**

**Section: (none)**

**Explanation**

**Explanation/Reference:**

answer is superb.

**QUESTION 57**

What is the importance of assigning an owner?

- A. To apply permissions to a metric
- B. To allow tracking of accountability on a metric
- C. To assign actions to a metric
- D. To allow tracking of accountability on an impact diagram

**Correct Answer: B**

**Section: (none)**

**Explanation**

**Explanation/Reference:**

Explanation:

**QUESTION 58**

Given the following information, what is the score?

Metric type performance pattern; Below target is positive Default Tolerance: 200 Score per tolerance: 1  
Target: 4000 Actual: 4400

- A. Score is 2
- B. Score is 1
- C. Score is-2
- D. Score is-1

**Correct Answer: C**

**Section: (none)**

**Explanation**

**Explanation/Reference:**

true.

**QUESTION 59**

What is created after the New metrics export wizard is run from Cognos Connection?

- A. Metrics extracts
- B. Tab-delimited files
- C. Objects extracts
- D. Deployment package

**Correct Answer: B**

**Section: (none)**

**Explanation**

**Explanation/Reference:**

outclass answer.

**QUESTION 60**

An administrator wants to import data from tab-delimited files into an application. When creating an import source for these files, what must the administrator specify in Metric Studio?

- A. Character set encoding
- B. Number of rows

- C. Tool used to create the file
- D. Physical size (in KB) of the file

**Correct Answer:** A

**Section:** (none)

**Explanation**

**Explanation/Reference:**

Explanation:

#### **QUESTION 61**

What type of import source needs to be defined in Metric Studio when importing data from the Metrics import directory?

- A. Tab-delimited files
- B. Cognos Planning data
- C. Cube-based Framework Manager Packages
- D. Relational Framework Manager Packages

**Correct Answer:** A

**Section:** (none)

**Explanation**

**Explanation/Reference:**

Explanation:

#### **QUESTION 62**

Assuming that strategy elements are displayed on a scorecard, what can happen to metrics that have not been assigned to any strategy element?

- A. They can be added within the first strategy element.
- B. They can appear first in the metric list, above all the strategy elements.
- C. They can be assigned to a strategy element called 'Other metrics'.
- D. They can be assigned to a strategy element called 'Unassigned metrics'

**Correct Answer:** C

**Section:** (none)

**Explanation**

**Explanation/Reference:**

Explanation:

#### **QUESTION 63**

An administrator wants to add a non-CognosBI report to the Reports tab of a scorecard. In the process, what must the administrator specify?

- A. UNC path
- B. Diagram identifier
- C. Scorecard name
- D. URL

**Correct Answer:** D

**Section:** (none)

**Explanation**

**Explanation/Reference:**

applicable.

#### **QUESTION 64**

An administrator wants to add a URL to the Reports tab for a specific metric. This URL will reference a Web

report for the year 2003. Which of the following would the administrator type in order for the report to display correctly?

- A. www.company.com/[year][sc\_extid].html
- B. www.company.com/[year][type\_sid].html
- C. www.company.com/[metric\_extid][year].html
- D. www.company.com/[sc\_extid][year].html

**Correct Answer:** C

**Section:** (none)

**Explanation**

**Explanation/Reference:**

Excellent answer.

#### **QUESTION 65**

When a user clicks on a metric status, they are brought to the Details tab. What causes this behavior?

- A. The metric is a calculated metric and therefore goes to the Details tab.
- B. Five status indicators are being used which default to the Details tab from a metric status indicator.
- C. The navigation path for metric status indicator is set to the Details tab.
- D. The metric type metric status indicator view is set to the Details tab.

**Correct Answer:** C

**Section:** (none)

**Explanation**

**Explanation/Reference:**

absolute answer.

#### **QUESTION 66**

What type of diagram shows inventory metrics in different sales territories?

- A. Impact diagram
- B. Strategy map diagram
- C. Process diagram
- D. Geographical diagram

**Correct Answer:** D

How can a user view their most important metrics in Cognos Connection?

- A. Add a Metric List portlet to Cognos Connection.
- B. Add an Extended Applications portlet to Cognos Connection.
- C. Add a Navigator portlet to Cognos Connections.
- D. Add a Bookmarks Viewer portlet to Cognos Connection.

**Correct Answer:** A

**Section:** (none)

**Explanation**

**Explanation/Reference:**

100% correct answer.

**QUESTION 68**

Which of the following can be displayed in an custom diagram?

- A. Actions
- B. Reports
- C. Projects
- D. Scorecards

**Correct Answer: C**

**Section: (none)**

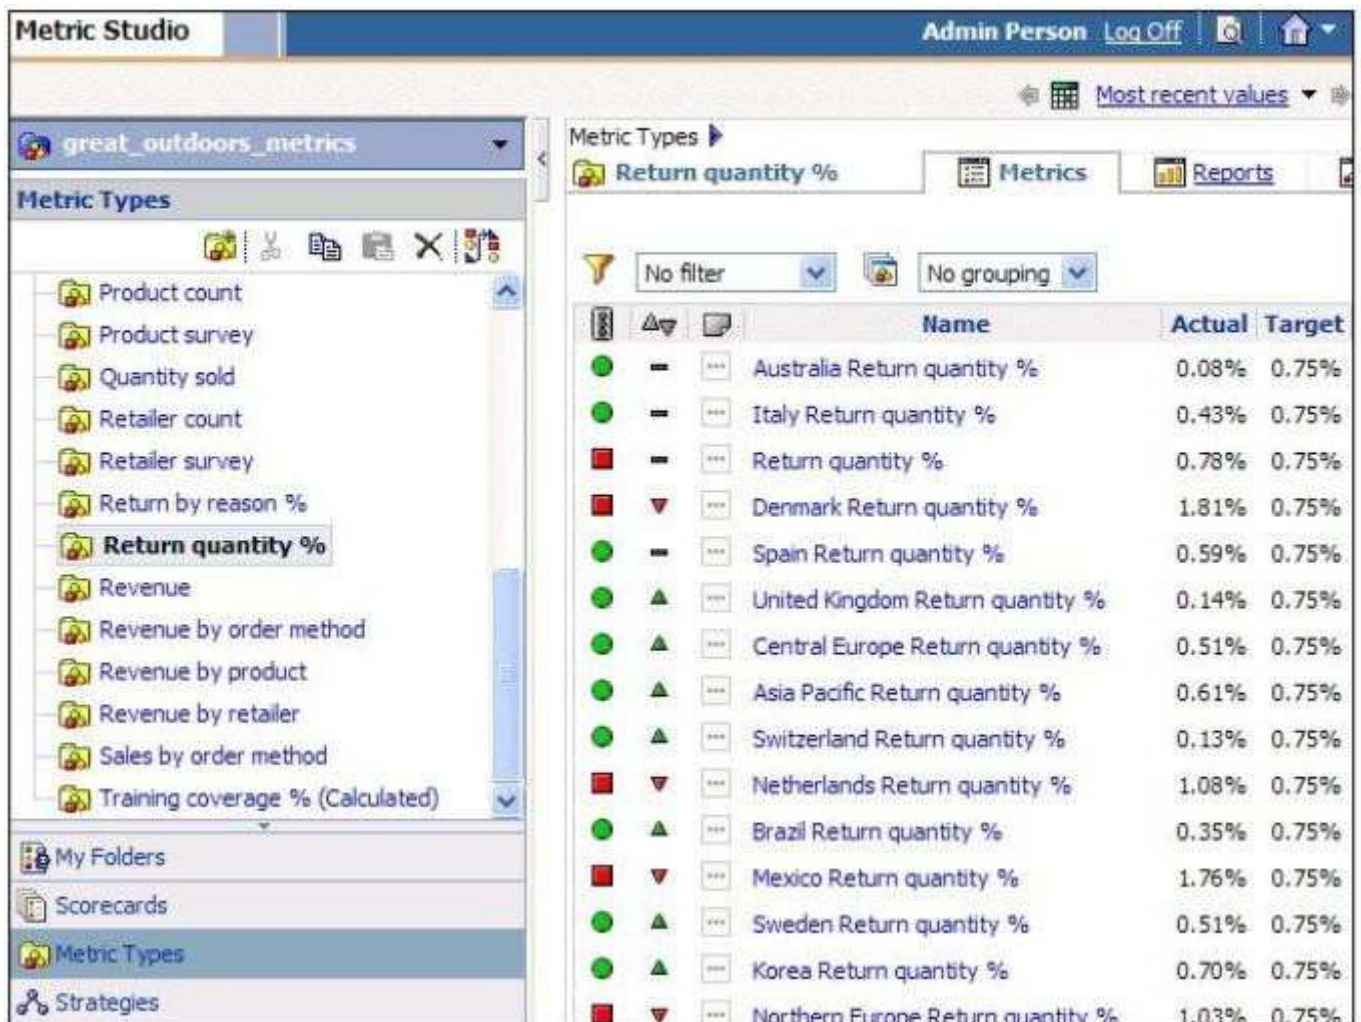

**Explanation**

**Explanation/Reference:**

Explanation:

**QUESTION 69**

A user logs in and is immediately presented with the screen below. What setting controlled this being the initial screen?

The screenshot shows the Metric Studio interface. On the left, the 'Metric Types' list is expanded, showing various metrics. The 'Return quantity %' metric is selected. The main panel displays a table of metrics with columns for Name, Actual, and Target. The 'Return quantity %' metric is highlighted in the list.

| Name                              | Actual | Target |
|-----------------------------------|--------|--------|
| Australia Return quantity %       | 0.08%  | 0.75%  |
| Italy Return quantity %           | 0.43%  | 0.75%  |
| Return quantity %                 | 0.78%  | 0.75%  |
| Denmark Return quantity %         | 1.81%  | 0.75%  |
| Spain Return quantity %           | 0.59%  | 0.75%  |
| United Kingdom Return quantity %  | 0.14%  | 0.75%  |
| Central Europe Return quantity %  | 0.51%  | 0.75%  |
| Asia Pacific Return quantity %    | 0.61%  | 0.75%  |
| Switzerland Return quantity %     | 0.13%  | 0.75%  |
| Netherlands Return quantity %     | 1.08%  | 0.75%  |
| Brazil Return quantity %          | 0.35%  | 0.75%  |
| Mexico Return quantity %          | 1.76%  | 0.75%  |
| Sweden Return quantity %          | 0.51%  | 0.75%  |
| Korea Return quantity %           | 0.70%  | 0.75%  |
| Northern Europe Return quantity % | 1.03%  | 0.75%  |

- A. In My Preferences, the user sett his as their default view
- B. The user set this view as their home view
- C. The scorecard developer set this as the default view for all users
- D. The scorecard developer set the navigation path to this view when logging in

**Correct Answer: B**

Explanation:

**QUESTION 70**

On a scorecard, a Report Studio report containing prompts will be included on the Reports tab. How can the report be run without prompting the user?

- A. Create a user-defined column to pass as prompt value to the Report Studio report.
- B. Use default parameters that exist in Report Studio.
- C. Supply the parameters as prompt values to be used when running the Report Studio report.
- D. Prompt the user for the values when they navigate to the Reports tab.

**Correct Answer: C**

**Section: (none)**

**Explanation**

**Explanation/Reference:**

great answer.

**QUESTION 71**

What method is used to run the metric extracts on a weekly basis?

- A. Publish to content store
- B. Create and schedule job for execute
- C. Execute an extract and write to files
- D. Publish the extract to the content store with the optional job

**Correct Answer: B**

**Section: (none)**

**Explanation**

**Explanation/Reference:**

right.

**QUESTION 72**

Which activity must be completed before creating metrics extracts from a Framework Manager package?

- A. Publish the Framework Manager package to the content store.
- B. Extract the Framework Manager package from the content store.
- C. Publish the Framework Manager package to the metric store.
- D. Publish the Framework Manager package to the same machine as Metric Designer

**Correct Answer: A**

**Section: (none)**

**Explanation**

**Explanation/Reference:**

Explanation:

**QUESTION 73**

Which of the following can an administrator create while building a metrics extract?

- A. Projects
- B. Diagrams
- C. Scorecards
- D. Strategies

**Correct Answer:** C  
**Section:** (none)  
**Explanation**

**Explanation/Reference:**  
definite answer.

**QUESTION 74**

What must be done to import tab-delimited files from a previous version of Metric Studio?

- A. Create staging tables for the previous version
- B. Specify the file format as the previous version
- C. Indicate the file version in the appropriate column of the tab-delimited file
- D. Modify the staging tables to match the tab-delimited files from the previous version

**Correct Answer:** B  
**Section:** (none)  
**Explanation**

**Explanation/Reference:**  
well defined.

**QUESTION 75**

What does a qualifier do?

- A. Distinguishes between metrics to be used in a derived metric calculation
- B. Identifies metrics that belong to specific groups.
- C. Identifies metrics of the same type across different scorecards.
- D. Distinguishes between metrics of the same type on the same scorecard.

**Correct Answer:** D  
**Section:** (none)  
**Explanation**

**Explanation/Reference:**  
answer is correct.
